

AKHILESH YADAV

Data Analyst | Data Science Postgraduate

Surat, Gujarat, India | +91 7487850787 | yadavakhil766@gmail.com | linkedin.com/in/akhilesh-yadav88 | github.com/akhileshyadav8

PROFESSIONAL SUMMARY

Data Science postgraduate and detail-oriented Data Analyst with expertise in Python, SQL, Power BI, and Machine Learning. Skilled in data analysis, statistical modeling, dashboard development, and predictive analytics. Experienced in building data-driven solutions, developing REST APIs using FastAPI, containerizing applications with Docker, and deploying projects on AWS. Strong ability to transform complex data into actionable business insights.

TECHNICAL SKILLS

Programming	: Python
Databases	: SQL, MySQL, MongoDB
Data Analysis	: EDA, Data Cleaning, Data Wrangling, Statistical Analysis
Libraries	: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
Statistics	: Descriptive Statistics, Probability, Hypothesis Testing
Data Visualization	: Power BI, Excel, Tableau, Dashboard Development
Machine Learning	: Regression, Classification, NLP, Feature Engineering, Model Evaluation
Backend & APIs	: FastAPI, Pydantic
Tools	: Git, GitHub, Docker, AWS EC2, Streamlit
Soft Skills	: Problem Solving, Analytical Thinking, Communication, Team Collaboration

WORK EXPERIENCE

Data Analyst Virtual Intern - Cognifyz Technologies	Dec 2025 - Jan 2026
- Performed EDA on 9500+ restaurant records to analyze pricing, cuisines, ratings, and customer preferences - Created visual reports and statistical summaries to identify delivery trends, customer behavior, and business patterns - Applied data cleaning and preprocessing techniques using Pandas and NumPy to improve data accuracy and reporting quality	

PROJECTS

Punjab Groundwater Depletion Analysis and Prediction Github <i>Python, Machine Learning, Streamlit</i>	Feb 2026
- Analyzed 10,000+ groundwater records across 23 districts of Punjab from 1994–2024 to identify depletion trends - Developed regression models to forecast groundwater levels for 2025–2030 with ~91% prediction accuracy - Built an interactive Streamlit dashboard with temporal and geospatial visualizations for trend analysis	
Walmart Sales Analysis Github <i>Python, SQL, Power BI</i>	Jan 2026
- Used SQL queries and Python to analyze sales transactions and identify revenue trends, customer behavior, and top-performing product categories - Built an interactive Power BI dashboard with KPIs, sales trends, and business intelligence insights for regional performance analysis - Performed data cleaning and exploratory analysis to support business-focused decision making	
Uber Rides Analysis Github <i>Python, Pandas, Matplotlib</i>	Dec 2025
- Performed exploratory data analysis to identify peak hours, demand patterns, and ride usage trends - Created visualizations using Matplotlib and Seaborn to analyze time-based ride distribution patterns	

EDUCATION

Chandigarh University, Mohali, Punjab <i>M.Sc. Data Science</i> CGPA - 8.30	Aug 2025 - Aug 2027
SDJ International College, Surat, Gujarat <i>Bachelor of Computer Application</i> CGPA - 8.61	Aug 2022 - Apr 2025

ACHIEVEMENTS & ACTIVITIES

- Participated in Inter-College Statathon (2025), Chandigarh University
- Presented a data analysis project at Project Expo (2025), Chandigarh University
- Participated in Inter-College Hackathon (2025), SDJ International College

CERTIFICATIONS

- IBM Data Analyst Professional Certificate - Coursera
- SQL (Advanced) - HackerRank
- Business Intelligence Tool: Power BI – Veer Narmad South Gujarat University
